

Yunlei Shen

Seattle-based product designer with an AI-accelerated practice: from ambiguous problem space to shipped, measurable outcomes.

Experience

Veteran Benefits Guide

Product Designer II · Founding Designer
Nov 2023 – Present · Seattle, WA

- Own end-to-end UX strategy across B2C, enterprise, internal platforms, and emerging AI initiatives as the company's first in-house designer.
- Turned a fully manual claims process into guided self-serve flows: **53.1%** self-serve adoption, task time down **48.6%**, claims throughput up **22%**.
- Work AI-first across the craft: research synthesis, competitive analysis, spec writing, and prototyping all run through AI tools daily, roughly doubling personal design throughput.
- Redesigned the internal CRM around real ops workflows: **2×** claim submissions, satisfaction up from **1.8 to 3.1**.
- Built the cross-platform design system (design tokens, Figma variables); vibe-code working prototypes in Cursor and Claude to validate flows in real code before engineering builds.
- Lead mixed-methods research and co-creation workshops that shape the product roadmap with leadership.

Anonymous Agent

Product Designer
May 2022 – Oct 2023 · Seattle, WA

- Designed a two-sided influencer marketplace from 0 to 1: **900+** influencers and **132+** local businesses onboarded in the first six months, with **20–30%** daily user growth after launch.
- Streamlined the deal flow so a business goes from opening a Details page to a confirmed contract in about **2 minutes**.
- Drove a **13.1%** engagement lift and **10.3%** task-success gain through mixed-methods research and iterative usability testing.
- Established a modular design system that raised development velocity across mobile and web.

Young & Hungry Creative

UX Design Intern
Jan 2022 – May 2022 · San Francisco, CA

- Redesigned nonprofit donation flows and information architecture: donor conversion up **12.2%**, event registrations up **8.5%**.

General Motors

UX Design Co-op
Sep 2021 – Dec 2021 · San Francisco, CA

- Built GM's 2039 vision experience in Webflow, translating brand principles into immersive digital storytelling with the UX and Industrial Design teams.

Skills

AI Fluency

- Daily AI-first design workflow
- Prompt & context engineering
- AI-assisted research synthesis
- Studying AI UX patterns: human-in-the-loop, agentic & conversational UI

Vibe Coding

- Cursor · Claude
- Figma Make
- Prompt-to-prototype workflows

Design

- Design systems & tokens
- Interaction design
- Rapid prototyping
- Accessibility (WCAG 2.2)

Research

- Mixed-methods research
- Usability & A/B testing
- AI-assisted synthesis

Tools

- Figma · Adobe CC · Miro
- Webflow · Framer · HTML/CSS

Education

Academy of Art University

M.A., Interaction & UI/UX Design
2020 – 2022 · San Francisco

Zhejiang University of Technology

B.F.A., Digital Arts
2011 – 2015 · China
